2015-2016 Sustainable Stanford Internship Position Description

Campus Department –Department Division/Office: R&DE Student Housing

Position Supervisor: Kristin Parineh

Position Title: Energy Analysis Intern

Position Description: The R&DE Student Housing Sustainability Programs Office is looking for an intern to assist with building a return on investment case for adding additional smart meters on student residences. The intern will establish a study of 1-2 residence’s energy consumption by use and time of day to explore how receiving that data electronically across our portfolio of buildings would provide energy savings and better management.

Position Length: Entire 2015-2016 academic year

Opportunities and Benefits:
- Learn about campus sustainability and gain project management experience in designing and implementing projects.
- Work collaboratively with others on educating and advocating for positive campus change.
- Develop professional management, communication, and leadership skills.
- Develop relationships with sustainability leaders on and off campus.
- Learn about careers in sustainability.
- Make a real impact!

Qualifications:
- Eager to learn about and advocate for conservation and sustainability; creative and enthusiastic.
- Effective written and oral communication skills.
- Can work well independently as well as collaboratively.
- Organized, self-motivated and accountable for work.
- Able to commit the required weekly 3-8 hours of work.

Salary:
Hourly salary at a rate of $13-15/hr

**To Apply:**
Please provide a resume and cover letter stating your interest and experience by email to mkearns@stanford.edu. **Deadline is Monday, May 11.** Interviews will be held during the week of May 18-22 and hiring decisions will be announced by May 29.
